

ATLAS Global Infrastructure UCITS ICAV - Series A USD Hedged

Fund Objective

The ATLAS Infrastructure Global Strategy aims to provide investors with exposure to a selection of high quality infrastructure equities. The portfolio will be invested in OECD countries only and is a high conviction strategy focussed on investing in infrastructure securities which provide the optimal balance of return and risk. The fund aims to monitor and manage carbon and climate change risk exposures within set tolerances.

Monthly Update

The portfolio returned 0.54% (net of fees) in May versus the benchmark return of 0.82%. The total contribution to local returns from our equity holdings was 1.04%. The main contributors in the period were our holdings in ADP, SESE and Red Electrica. Edison International, AusNet and Chorus were the main detractors.

Portfolio Positioning and Macro Outlook

The Investment Committee made no material changes to the portfolio during the month. The portfolio remains well positioned with regards to stagflation and fast transition, GDP beta and recession risk remain close to neutral compared to the universe whereas CPI beta and long bond beta are better than the universe.

Stock Highlight

Avangrid owns and operates eight regulated utilities in North East United States and also operates the 3rd largest wind and solar generation portfolio in the country with 8.5GW of capacity in operation. Avangrid was formed through a merger between UIL Holdings and Iberdrola US in 2015 and the Iberdrola Group remains a majority shareholder. Avangrid has continued to invest in developing clean energy solutions and recently received final approval for its Vineyard Wind project, the first utility scale offshore wind farm in the US. We see Avangrid delivering returns through its large investment program to support clean energy transition, including US\$2bn in network spending and US\$1bn in additional renewable project spending in 2021. Avangrid recently received final approval and funding for its merger with PNM Resources, a New Mexico based utility with a very ambitious renewable deployment plan. ATLAS sees Avangrid as well positioned to benefit from an acceleration of climate transition policy in the US over the coming years.
