Document valid as at: 05-01-2023

WHAT IS THIS PRODUCT?

Type:

UCITS

Term:

This product is not subject to any fixed term.

Objectives:

The Fund seeks to achieve income and capital growth over the medium to long term.

Intended Retail Investor:

This product is for investors, seeking growth through an actively managed Fund invested in Equities. Investors should appreciate that their capital will be at risk and that the value of their investment and any derived income may fall as well as rise.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to cash in early. You may have to pay significant extra costs to cash in early.

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as class 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of the fund to pay you.

Further information on the risks faced by the Fund is included in "Risk Factors" in the prospectus.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

| Recommended minimum holding period: 5 years Investment 10 000 AUD | | | |
|--|-------------------------------------|------------|---|
| Survival Scenarios Minimum: | | 1 year | 5 years (recommended holding period) |
| Stress scenario | What might you get back after costs | 9 300 AUD | 9 150 AUD |
| | Average return each year | - 6.98 % | - 1.76 % |
| Unfavourable scenario | What might you get back after costs | 10 510 AUD | 11 550 AUD |
| | Average return each year | 5.11% | 2.92% |
| Moderate scenario | What might you get back after costs | 10 710 AUD | 14 300 AUD |
| | Average return each year | 7.08% | 7.42% |
| Favourable scenario | What might you get back after costs | 11 570 AUD | 16 510 AUD |
| | Average return each year | 15.74% | 10.55% |

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: This type of scenario occurred for an investment between 11/2021 and 10/2022.

Moderate: This type of scenario occurred for an investment between 07/2015 and 06/2020.

Favourable: This type of scenario occurred for an investment between 11/2017 and 10/2022.

WHAT HAPPENS IF ATLAS GLOBAL INFRASTRUCTURE UCITS ICAV IS UNABLE TO PAY OUT?

You may face financial loss should the manufacturer or depository default on their obligations.

There is no compensation or guarantee scheme in place which may offset, all or any of, this loss.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- AUD 10 000 is invested.

| Investment 10 000 AUD | If you exit after 1 year | If you exit after 5 years |
|-----------------------|--------------------------|---------------------------|
| Total costs | 60 AUD | 431 AUD |
| Annual Cost Impact* | 0.6 % | 0.64 % |

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.06% before costs and 7.42% after costs.

Composition of Costs

| One-off costs upon entry or exit | | If you exit after 1 year |
|--|---|--------------------------|
| Entry costs | We do not charge an entry fee for this product. | N/A |
| Exit costs | We do not charge an exit fee for this product, but the person selling you the product may do so. | N/A |
| Ongoing costs | | |
| Management fees and other administrative or operating costs | 0.25% The ongoing charges are the running costs of the Fund, including distribution and marketing, but exclude transaction costs and performance fees. | 26 AUD |
| Portfolio transaction costs | 0.34% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. | 34 AUD |
| Incidental costs taken under specific conditions | | |
| Performance Fee | There is no performance fee for this product. | N/A |

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

Recommended minimum holding period: 5 years

This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.
