Background to the ICAV

Description

The following information is derived from and should be read in conjunction with the full text and definitions section of the Prospectus and Supplement to the Prospectus.

ATLAS Global Infrastructure UCITS ICAV (the "ICAV") is an open-ended umbrella Irish collective asset-management vehicle with segregated liability between its Sub-Funds. The ICAV was registered under the Irish Collective Assetmanagement Vehicles Act 2015 (as amended) (the "ICAV Act") on 20 March 2017 and received authorisation from the Central Bank of Ireland (the "Central Bank") on 22 September 2017 as an Undertaking for Collective Investment in Transferable Securities ("UCITS") in accordance with the provisions of the European Communities (Undertakings for Collecting Investment in Transferable Securities) Regulations 2011, (as amended) (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations"). The reporting code assigned to the ICAV is C167077.

The instrument of incorporation ("Instrument") provides that the ICAV may offer separate classes of shares, each representing interests in a Sub-Fund with each Sub-Fund comprising a separate and distinct portfolio of investments. The assets of each Sub-Fund will be invested separately on behalf of each Sub-Fund in accordance with the investment objective and policies of each Sub-Fund and the assets and liabilities of each Sub-Fund are segregated as a matter of Irish law. The value of the shares of each Sub-Fund shall at all times equal their net asset value. The base currency of each Sub-Fund will be determined by the Directors and will be set out in the Prospectus and/or Supplement for the relevant Sub-Fund.

As at 30 June 2024, the ICAV has one active Sub-Fund:

ATLAS Clobal	Infrastructure Fund
ATLAS CIODAL	Innastructure rund

Approval Date	Launch Date
22 September 2017	3 October 2017

As at 30 June 2024, the ATLAS Global Infrastructure Fund (the "Fund") had the following share classes in issue:

See the Supplement of the Fund for further details. The creation of further classes must be notified to, and cleared in advance with, the Central Bank. The reporting code assigned to the Fund is C173855.

Background to the ICAV (Continued)

Investment Objective and Policy

The investment objectives and policies for each Sub-Fund will be formulated by the ICAV at the time of creation of that Sub-Fund and specified in the relevant Supplement to the Prospectus. The investment objective for the Fund is set out below.

The Fund's investment objective is to provide a combination of income and capital appreciation by investing in a portfolio of global infrastructure equity investments.

The investment policies of the Fund are as follows:

The Fund will seek to achieve its investment objective by investing in a portfolio of equity and equity related securities listed on stock exchanges in the developed and developing nations.

The portfolio of equities and equity related securities will be issued by, or provide exposure to, global companies engaged in infrastructure related activities in various sectors, including essential services (which may include electric, gas and water utilities and companies with similar characteristics), transport (which may include toll roads, bridges, tunnels, rail infrastructure, airports, ports and companies with similar characteristics), communications (satellite, wireless tower and other communication network related companies) and community and social infrastructure (which may include education, public housing, prison, stadia and related facilities and infrastructure). The Fund may not invest more than 10% of the Net Asset Value of the Fund in emerging markets.

The Fund may use forward contracts to hedge currency exposures at Share Class level.

Investment Management

ATLAS Infrastructure Partners (UK) Limited serves as the Investment Manager (the "Investment Manager" or "ATLAS") to the ICAV pursuant to an investment management agreement dated 22 September 2017.

Investment Manager's Report

For the year ended 30 June 2024

The following table outlines the performance achieved for each Series A share class over the 12 months against the absolute return benchmark (G7 Inflation, plus 5% in local currency) and the reference index as represented by the FTSE Developed Core Infrastructure 50/50 Index - Net Return (in equivalent local currency and either hedged or unhedged):

Series & Currency	ATLAS Funds* (Hedged)	Ref Index^ (Hedged)	ATLAS Funds (Unhedged)	Ref Index^ (Unhedged)	Absolute Benchmark*
Series A USD	-1.9%	4.7%	-4.0%	2.7%	8.2%
Series A EUR	-3.9%	2.4%	-2.3%	4.6%	8.2%
Series A GBP	-2.5%	3.7%	-3.5%	3.3%	8.2%
Series A AUD	-3.9%	2.6%	-4.4%	2.4%	8.2%

* ATLAS Benchmark is G7 Inflation +5%

^ Reference index is the FTSE Developed Core Infrastructure 50/50 Index

All returns are net of expenses.

For the year 30 June 2024, global listed infrastructure as an asset class returned 4.7% (local currency), substantially underperforming general equities which returned 21.9% (local currency). The market was impacted by two key narratives over the year, the perceived trajectory of interest rates and the performance of mega-tech stocks ('Magnificent Seven') and broader AI euphoria. Following initial strong inflation and economic data, Q3 2023 saw a sell-off in global equities, particularly those with bond rate exposures. A material shift in global sentiment commenced in Q4 2023 (and continued in Q1 2024) resulting in equities and risk assets repricing off the back of falling inflation. However, by the end of Q1 2024, markets had reverted to a more bearish view on the timing and number of rate cuts across 2024 in the US, as economic data continued to remain robust.

Within the listed infrastructure sector, Pipelines & Storage (+2.7%) and Electric Utilities (+1.8%) were the top performers, led by the relative outperformance in North America, driven by the emergence of the AI thematic which saw asset classes with links to data centres power demand and incremental generation build-out benefitting. Other factors for Pipelines & Storage included tailwinds from stronger commodity prices and political momentum resulting in a shift in expectations to a slower energy transition in Europe and the US with oil, gas and thermal generation exposed utilities benefitting contrasting with continued weakness for clean energy and renewables. Airports (+1.1%) also continued to rebound post Covid, with forward capacity continuing to strengthen in several key markets. Key detractors included Communications (-0.4%) and Asia-Pacific Toll Roads (-0.9%). In each case, the declines driven by assets with weaker inflation and/or bond rate protection.

The ATLAS Global strategy returned -1.3% (local currency), largely owing to the position in Orsted (Renewables), SES (Communications) and ADP (Airports). On an absolute basis, Electric Utilities were the largest positive contributor (+1.9%, local currency), where our holdings outperformed the returns in both the UK/Europe and North American markets.

Relative to the FTSE Developed Core Infrastructure 50/50 index, our allocation to UK/Europe contributed $\pm 1.6\%$ and our lower exposure to North America detracted $\pm 0.2\%$. Our lack of exposure to Asia-Pacific contributed $\pm 0.9\%$. Within sectors, our selection in UK/Europe detracted $\pm 8.3\%$ driven by Renewables and Airports, which was slightly offset by our selection in European Communications ($\pm 1.2\%$) and European Railways ($\pm 0.5\%$).

StockSectorRegionContribution (Local
Currency)United Utilities GroupWaterUK / Europe+0.8%Edison InternationalElectricNorth America+0.6%

Electric

The key contributors to the performance of the Fund over the year were as follows:

Source: FactSet, ATLAS calculations

Enel SpA

United Utilities is a UK regulated water and wastewater provider. In October, alongside the rest of the sector, the company announced their business plans for the 2026-2030 control period which included a significant increase in expenditures vs. the 2020-2025 period of more than 80% with the objective of addressing new commitment levels and standards in leakage, customer experience, storm overflow reduction and other areas. We see this increase in spending as positive for both investors and customers and we have been encouraged by the response so far from Ofwat and the Government. The announcement in October led to a substantial re-rating of the company by the market.

UK / Europe

Edison International, through its subsidiary Southern California Edison, is an electric utility company which serves the central, coastal, and southern area of California. In December, the California Public Utilities Commission confirmed that authorised Return on Equity for the state's electric and gas utilities including Edison International would increase by 70bp in 2024 due to an automatic adjustment connected to US bond yields exceeding the dead-band threshold. We note that this form of regulatory adjustment mechanism is not at all common amongst US utilities and represents a form of risk mitigation for the Californian utilities in the event of sustained higher interest rates. This combined with higher than consensus reported earnings in both Q4 2023 and Q1 2024 has resulted in a positive share price re-rating.

Enel is one of Europe's largest integrated utilities that engages in electricity distribution, generation and supply across the EU, Latin America and the US and is a monopoly operator of Italy's electricity distribution grid. Enel is also a leading name in the green power transition with over 50GW of operational renewable capacity and a further 113GW of mature capacity in the pipeline. We bought into Enel after the company share price had been adversely impacted by the uncertainty around the state of European gas and electric markets in Q1 2022. The resilience of the Enel regulated assets and renewable portfolio, combined with the easing of concerns around the European Energy crisis, higher merchant pricing in Italy and continued strong guidance and retail margins relative to past performance has led to a substantial re-rating of the company by the market.

The key detractors to the performance of the Fund over the year were as follows:

Stock	Sector	Region	Contribution (Local Currency)
Orsted	Renewables	UK / Europe	-2.7%
Aeroports de Paris	Airport	UK / Europe	-0.7%
SES SA FDR (Class A)	Comms	UK / Europe	-0.6%

Source: FactSet, ATLAS calculations

Orsted is a Danish renewables company which develops, constructs, and operates offshore and onshore wind farms, solar farms and other renewable and green fuel facilities. The share price fell following announcements around large scale impairments of its US offshore wind business due to supply chain issues and changes in the macro environment driven by rapid interest rate rises. Following this, the company announced a number of measures including a dividend holiday, reduction in pipeline and an acceleration of farm-downs to prevent an equity raise, however, S&P still downgraded the stock following full year results. We continue to see the Orsted position as attractive, with the current share price still below our current intrinsic value.

Investment Manager's Report (Continued)

For the year ended 30 June 2024

Aeroports de Paris (ADP) operates the three airports in Paris, as well as operating several international operations. At the end of 2023, the French government released a draft bill which sought to tax operators of long-distance infrastructure assets including toll roads and airports from 2024. The news surprised the market, as commentary to date had been focusing the new potential tax only on the toll road concessionaires. Following discussions with management who noted they would not fight the bill and recoupment of the tax would not be a pass-through, we exited our position, as we saw the outcome as a reinforcement of ADP's limited bargaining position within their regulatory construct, and the ongoing risk to cashflows from the French "social contract".

As at 30 June 2024, the Fund held 21 positions and the top 10 holdings were:

Holding	Country^	Sector	Weight
National Grid plc	United Kingdom	Electric	7.8
Edison International	United States	Electric	7.6
United Utilities Group PLC	United Kingdom	Water	7.4
Terna S.p.A.	Italy	Electric	7.4
SES SA FDR (Class A)	France	Comms	6.3
Pinnacle West Capital Corporation	United States	Electric	4.8
Avangrid, Inc.	United States	Electric	4.6
Portland General Electric Company	United States	Electric	4.6
Severn Trent Plc	United Kingdom	Water	4.6
Snam S.p.A.	Italy	Gas	4.5

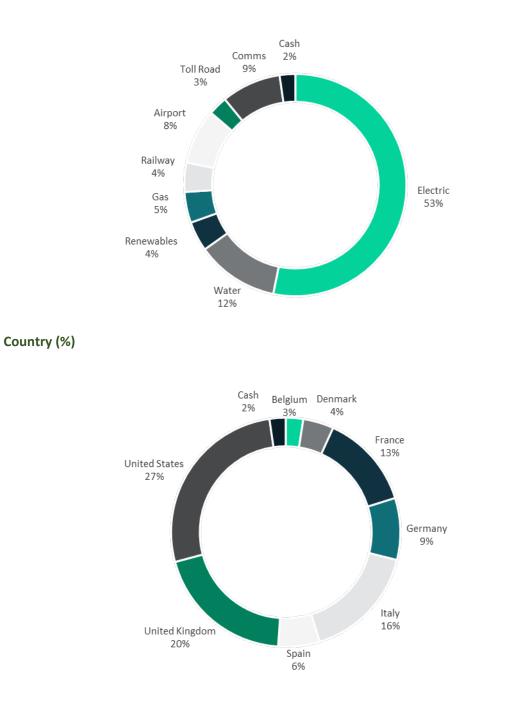

^Country of Exchange

As at 30 June 2024, the portfolio is weighted to those sectors with the highest prospective returns being regulated utilities, including electric and water. In keeping with our approach of selecting stocks based on fundamental valuations, the portfolio has a stronger weighting towards UK and European stocks. The portfolio is well positioned with respect to having better inflation and stagflation characteristics than the investment universe.

Directors' Report

For the year ended 30 June 2024

ATLAS Global Infrastructure UCITS ICAV (the "Directors") present the Directors' Report and Audited Financial Statements for the year ended 30 June 2024.

Principal Activities

A detailed review of the Fund's activities for the year ended 30 June 2024 is included in the Investment Manager's Report on pages 5-8.

Directors' Responsibilities Statement

The Directors are responsible for preparing the Directors' Report and financial statements, in accordance with applicable law and regulations.

The ICAV Act requires the Directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union ("EU").

The financial statements are required to give a true and fair view of the assets, liabilities and financial position of the ICAV at the end of the financial year and of the changes in net assets attributable to holders of redeemable participating shares in the ICAV for the financial year. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether applicable Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the ICAV's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the ICAV or to cease operations, or have no realistic alternative but to do so.

The Directors are responsible for keeping adequate accounting records which disclose with reasonable accuracy at any time the assets, liabilities, financial position of the ICAV and changes in net assets attributable to holders of redeemable participating shares in the ICAV and enable them to ensure that the financial statements comply with the ICAV Act and the UCITS Regulations and Central Bank UCITS Regulations. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the ICAV. In this regard they have entrusted the assets of the ICAV to a trustee for safe-keeping. They are responsible for such internal controls as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and to prevent and detect fraud and other irregularities. The Directors are also responsible for preparing a Directors' Report that complies with the requirements of the ICAV Act.

Results, Financial Position and Dividends

The results of operations for the year and financial position as at the year-end are set out in the Statement of Comprehensive Income and Statement of Financial Position respectively. Details of distributions during the year are disclosed in Note 15 to the financial statements.

Risk management objectives and policies

The main risks arising from the Fund's financial instruments as defined by IFRS 7 for financial reporting purposes are market risk (including market price risk, interest rate risk and foreign currency risk), credit risk and liquidity risk as detailed, together with the associated risk management objectives and policies, in Note 9 to the financial statements.

Directors who held office during the year

The Directors who held office at any time during the year were: Gerry Brady, Stephen Finn, Carl Chambers and Clinton Joyner.

Directors' and Secretary's Interests in Shares of the ICAV and its Fund

None of the Directors or the Secretary had any interests in the shares of the ICAV or its Fund at the year-end or at any time during the year (30 June 2023: same).

Directors' Report (Continued)

Transactions involving Directors

Other than as disclosed in Note 4 and Note 14 to the financial statements, there were no contracts or agreements of any significance in relation to the business of the ICAV or the Fund in which the Directors had any interest, as defined in the ICAV Act, at any time during the year.

Transactions with Connected Persons

Regulation 43(1) of the Central Bank UCITS Regulations requires in effect that any transaction carried out with a UCITS by a management company or depositary to the UCITS, the delegates or sub-delegates of the management company or depositary, and any associated or group companies of such a management company, depositary, delegate or sub-delegate ("connected persons") must be carried out as if negotiated at arm's length. Transactions must be in the best interests of the shareholders.

The Manager is satisfied that there are arrangements (evidenced by written procedures) in place to ensure that the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations are applied to all transactions with connected persons, and are satisfied that transactions with connected persons entered into during the year complied with the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations.

Accounting Records

The Directors believe that they have complied with the requirements of Sections 109 to 113 of the ICAV Act, with regard to keeping adequate accounting records. The Directors have appointed Waystone Management Company (IE) Limited who in turn has appointed Northern Trust International Fund Administration Services (Ireland) Limited to maintain adequate accounting records. The address at which this business is located is as follows:

Georges Court 54-62 Townsend Street Dublin 2 D02 R156 Ireland

Significant Events during the Year

Significant events during the year are disclosed in Note 19 to the financial statements.

Significant Events after the Year End

Significant events after the year end are disclosed in Note 20 to the financial statements.

Corporate Governance Code (the "Code")

Irish Funds, the association for the funds industry in Ireland, has published a corporate governance code that may be adopted on a voluntary basis by Irish authorised investment funds. The Board of Directors have adopted the Code, and the ICAV was in compliance with all elements of the Code during the year.

Auditors

The independent auditors, KPMG, Chartered Accountants, have expressed their willingness to continue in accordance with Section 125(5) of the ICAV Act.

Signed on Behalf of the Board of Directors

Stephen Finn

Stephen Finn Director 22 October 2024

Gerry Brady Director 22 October 2024

Depositary's Report to the Shareholders

We, Northern Trust Fiduciary Services (Ireland) Limited, appointed Depositary to ATLAS Global Infrastructure UCITS ICAV (the "ICAV") provide this report solely in favour of the shareholders of the ICAV for the year ended 30 June 2024 ("Accounting Period"). This report is provided in accordance with the UCITS Regulations – European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (SI No 352 of 2011) as amended, which implemented Directive 2009/65/EU into Irish Law (the "Regulations"). We do not, in the provision of this report, accept nor assume responsibility for any other purpose or person to whom this report is shown.

In accordance with our Depositary obligation as provided for under the Regulations, we have enquired into the conduct of the ICAV for this Accounting Period and we hereby report thereon to the shareholders of the ICAV as follows:

We are of the opinion that the ICAV has been managed during the Accounting Period, in all material respects:

(i) in accordance with the limitations imposed on the investment and borrowing powers of the ICAV by the constitutional document and by the Regulations; and

(ii) otherwise in accordance with the provisions of the constitutional document and the Regulations.

Paul Mobrey

Independent Auditor's Report to the Shareholders of Atlas Global Infrastructure UCITS ICAV

Report on the audit of the financial statements

Opinion

We have audited the financial statements of Atlas Global Infrastructure UCITS ICAV ('the ICAV') for the year ended 30 June 2024 set out on pages 15 to 47, which comprise the Statement of Comprehensive Income, the Statement of Financial Position, the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares, the Statement of Cash Flows and related notes, including the summary of significant accounting policies set out in note 1.

The financial reporting framework that has been applied in their preparation is Irish Law and International Financial Reporting Standards (IFRS) as adopted by the European Union.

In our opinion:

- the financial statements give a true and fair view of the assets, liabilities and financial position of the ICAV as at 30 June 2024 and of its changes in net assets attributable to holders of redeemable participating shares for the year then ended;
- the financial statements have been properly prepared in accordance with IFRS as adopted by the European Union; and
- the financial statements have been properly prepared in accordance with the requirements of the Irish Collective Asset-management Vehicles Acts 2015 to 2021 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the ICAV in accordance with ethical requirements that are relevant to our audit of financial statements in Ireland, including the Ethical Standard issued by the Irish Auditing and Accounting Supervisory Authority (IAASA), and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the ICAV's ability to continue as a going concern for a period of at least twelve months from the date when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Independent Auditor's Report to the Shareholders of Atlas Global Infrastructure UCITS ICAV (continued)

Other information

The directors are responsible for the other information presented in the Annual Report together with the financial statements. The other information comprises the information included in the Directors' report, Investments manager's reports, company information and unaudited appendices. The financial statements and our auditor's report thereon do not comprise part of the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except as explicitly stated below, any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work undertaken during the course of the audit, we have not identified material misstatements in the other information.

Based solely on our work on the other information undertaken during the course of the audit, we report that:

- we have not identified material misstatements in the directors' report;
- in our opinion, the information given in the directors' report is consistent with the financial statements; and
- in our opinion, the directors' report has been prepared in accordance with the Companies Act 2014.

Opinion on other matter prescribed by the Irish Collective Asset-management Vehicles Acts 2015 to 2021

In our opinion, the information given in the Directors' Report is consistent with the financial statements.

Matters on which we are required to report by exception

The Irish Collective Asset-management Vehicles Acts 2015 to 2021 requires us to report to you, if in our opinion, the disclosures of Directors' remuneration specified by law are not made. We have nothing to report in this regard.

Respective responsibilities and restrictions on use

Responsibilities of directors for the financial statements

As explained more fully in the directors' responsibilities statement set out on page 9, the directors are responsible for: the preparation of the financial statements including being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the ICAV's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the ICAV or to cease operations, or have no realistic alternative but to do so.

Independent Auditor's Report to the Shareholders of Atlas Global Infrastructure UCITS ICAV (continued)

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A fuller description of our responsibilities is provided on IAASA's website at <u>https://iaasa.ie/publications/description-of-the-auditors-responsibilities-for-the-audit-of-the-financial-statements/</u>.

The purpose of our audit work and to whom we owe our responsibilities

Our report is made solely to the shareholders of the ICAV, as a body, in accordance with the Section 120 of the Irish Collective Asset-management Vehicles Act 2015. Our audit work has been undertaken so that we might state to the ICAV's shareholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the ICAV and the ICAV's shareholders, as a body, for our audit work, for this report, or for the opinions we have formed.

Notes to the Financial Statements

For the year ended 30 June 2024

1. Significant Accounting Policies

a) Basis of Preparation

The financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union and with the requirements of the Irish Collective Asset-management Vehicles Act 2015 (as amended) (the "ICAV Act") and pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, (as amended) (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations").

All references to Net Assets throughout this document refer to Net Assets Attributable to Holders of Redeemable Participating Shares, unless otherwise stated.

The financial statements have been prepared on a going concern basis and under the historical cost convention except for financial instruments classified at fair value through profit or loss that have been measured at fair value.

The Directors have made an assessment of the ATLAS Global Infrastructure Fund's (the "Fund") ability to continue as a going concern and are satisfied that the Fund has the resources to continue for the foreseeable future. Furthermore, the Directors are not aware of any material uncertainties that may cast significant doubt upon the Fund's ability to continue as a going concern.

The functional currency of the Fund is the United States Dollar ("US Dollar" or "USD") as the Directors have determined that this reflects the Fund's primary economic environment. The presentation currency of the financial statements is also US Dollar and all figures have been rounded to the nearest US Dollar.

Accounting Standards

The Fund has adopted all applicable IFRS as endorsed by the European Union.

New and amended accounting standards in issue that have been adopted:

The following new and amended standards and interpretations that are effective for annual periods beginning 1 January 2023, did not have a material effect on the Financial Statements of the ICAV.

- IFRS 17 Insurance Contracts
- Classification of Liabilities as Current or Non-current Amendments to IAS 1
- Definition of Accounting Estimates Amendments to IAS 8
- Disclosure of Accounting Policies Amendments to IAS 1 and IFRS Practice Statement 2
- Deferred Tax related to Assets and Liabilities arising from a Single Transaction Amendments to IAS 12

There are no other standards, amendments to standards or interpretations that are effective for annual periods beginning on 1 January 2023 that have a significant impact on the ICAV's financial position, performance or disclosures in its financial statements.

New standards, amendments and interpretations effective after 1 January 2024 and have not been early adopted.

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 January 2024, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

(i) Use of Estimates, Assumptions and Judgements

The preparation of financial statements in conformity with IFRS requires the Directors to make use of estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting year. Although these estimates are based on management's best knowledge of the amounts, events or actions, actual results ultimately may differ from those estimates. The areas involving a higher degree of judgement or complexity or areas where estimates and assumptions are significant to the financial statements are disclosed in Note 9. The estimates and underlying assumptions are reviewed on an on-going basis.

For the year ended 30 June 2024

1. Significant Accounting Policies (Continued)

a) Basis of Preparation (Continued)

(i) Use of Estimates, Assumptions and Judgements (Continued)

Revisions to accounting estimates are recognised in the financial year in which the estimate is revised if the revision affects only that year or in the year of the revision and future years if the revision affects both current and future years.

b) Financial Assets and Liabilities at Fair Value through Profit or Loss

(i) Classification

Assets

The Fund classifies its investments based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The Fund has not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income. Derivative contracts that have a positive fair value are presented as assets at fair value through profit or loss. Consequently, all investments are measured at fair value through profit or loss.

• Liabilities

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

As such, the Fund classifies all of its investment portfolio as financial assets or liabilities as fair value through profit or loss.

The Fund's policy requires ATLAS Infrastructure Partners (UK) Limited (the "Investment Manager"), Waystone Management Company (IE) Limited (the "Manager") and the Board of Directors to evaluate the information about these financial assets and liabilities on a fair value basis together with other related financial information.

(ii) Recognition, Derecognition and Measurement

Investment transactions are accounted for on a trade date basis. Investments are initially recognised at the fair value of acquisition. Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Investments are derecognised when the rights to receive cash flow from the investments have expired or the Fund has transferred substantially all risks and rewards of ownership. Gains and losses arising from changes in the fair value of the 'financial assets or financial liabilities at fair value through profit or loss' category are presented in the Statement of Comprehensive Income within net gains/losses on financial assets and liabilities at fair value through profit or loss in the period in which they arise.

The fair value of investments traded in active markets are based on quoted market prices at the close of trading on the reporting date. The Fund utilises the last traded market price for such investments.

Forward foreign currency contracts are valued based on the closing forward contract rates on the relevant foreign exchange market on the reporting date. Realised gains and losses and movements in unrealised gains and losses are reported in the Statement of Comprehensive Income.

c) Impairment

IFRS 9 requires the Fund to record the expected credit losses ("ECLs") on all assets at amortised cost, either on a 12 month or lifetime basis. Given the limited exposure of the Fund to credit risk on the financial assets at amortised cost, this has not had a material impact on the financial statements.

The Fund's financial assets at amortised cost have no financing component and have maturities of less than 12 months and therefore the Fund has adopted the simplified approach to ECLs.

For the year ended 30 June 2024

1. Significant Accounting Policies (Continued)

c) Impairment (Continued)

No ECL impairment allowance has been recorded against the Fund's financial assets at amortised cost. The financial assets at amortised cost held by the Fund are cash and cash equivalents, securities sold receivable, dividend receivable, Investment management fee rebate receivable, subscriptions receivable and other receivables.

d) Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position where there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously. During the year, there were no financial assets or liabilities subject to Master Netting Agreements in place (30 June 2023: Nil).

e) Cash and Cash Equivalents

Cash and cash equivalents includes cash in hand, deposits held at call with banks and other short-term investments in an active market with original maturities of three months or less and bank overdrafts. Bank overdrafts are repayable on demand. In the Statement of Cash Flows, cash and cash equivalents are shown net of any short-term overdrafts which are repayable on demand and form an integral part of the Fund's cash management.

f) Transaction Costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument.

g) Income and Expense

Dividend income on long positions is recognised as income on the date the securities are first quoted as "exdividend". Income is shown gross of any non-recoverable withholding taxes, which are disclosed separately in the Statement of Comprehensive Income, and net of any tax credits. Interest income and expense are accounted for on an effective yield basis. Other income and expense items are accounted for on an accruals basis.

h) Net Gains/(Losses) on Financial Assets and Liabilities at Fair Value through Profit or Loss

Net gains/(losses) on financial assets and liabilities at fair value through profit or loss include all realised and unrealised fair value changes and foreign exchange differences but excludes dividend income. The Fund uses the average cost method to determine realised gains and losses. Net gains or losses on financial assets and liabilities are included in net gains/(losses) on financial assets and liabilities at fair value through profit or loss in the Statement of Comprehensive Income.

i) Taxation

Dividend and interest income or capital gains received by the Fund may be subject to withholding and other taxes imposed in the country of origin. Investment income or capital gains are recorded gross of such taxes and the corresponding tax is recognised as a tax expense.

j) Redeemable Participating Shares

The Fund classifies financial instruments issued as financial liabilities or equity instruments in accordance with the substance of the contractual terms of the instrument.

All redeemable participating shares issued by the Fund provide the Fund's investors with the right to require redemption for cash at the value proportionate to the investor's share in the Fund's net assets at the redemption date.

In accordance with IAS 32 such instruments give rise to a financial liability for the present value of the redemption amount.

For the year ended 30 June 2024

1. Significant Accounting Policies (Continued)

k) Functional Currency and Foreign Currency Translations

The functional currency of the Fund is US Dollar. The Directors have determined that this reflects the Fund's primary economic environment.

Assets and liabilities denominated in currencies other than US Dollar are translated into US Dollar at the closing rates of exchange at each year end. Transactions during the year, including purchases and sales of securities, income and expenses, are translated at the rate of exchange prevailing on the date of the transaction. Foreign currency gains and losses are included in net gains/losses on financial assets and liabilities at fair value through profit or loss and foreign currencies in the Statement of Comprehensive Income.

I) Share Class Hedging

A currency share class may be hedged against exchange rate fluctuation risks between the denominated currency of the currency share class and the base currency of the Fund. Alternatively, the currency exposure of the currency(ies) of the Fund's underlying assets may be hedged in order to mitigate the effect of fluctuations in the exchange rate between the currency(ies) of the Fund's underlying assets and the currency of the share class. The mechanism employed by the ICAV is referred to as look through hedging and involves a "line by line" approach in which each currency is hedged individually. Traditional hedging would typically see each share class hedging the USD values however the method adopted by the ICAV is to only hedge the non-local currency elements. Any financial instruments used to implement such strategies with respect to one or more hedged share classes shall not be assets/liabilities of the Fund as a whole but will be attributable to the relevant hedged share class(es) and the gains/losses on and the costs of the relevant financial instruments will accrue solely to the relevant hedged share class. Where a share class is to be hedged this will be disclosed in the Supplement for the Fund. Any currency exposure of a hedged share class may not be combined with or offset against that of any other share class of the Fund. The currency exposure of the assets attributable to a hedged share class may not be allocated to other share classes. Where the ICAV seeks to hedge against currency fluctuations, while not intended, this could result in overhedged or under-hedged positions due to external factors outside the control of the ICAV. Under-hedged position shall not fall short of 95% of the net asset value ("NAV") of the relevant hedged share class and over-hedged positions will not exceed 105% of the NAV of the relevant hedged share class and will be kept under review to ensure such are not carried forward from month to month. To the extent that hedging is successful for a particular hedged share class the performance of the hedged share class is likely to move in line with the performance of the base currency or the underlying assets with the result that shareholders in that hedged share class will not gain if the hedged share class currency falls against the base currency and/or the currency in which the assets of the Fund are denominated. A hedged share class will not be leveraged as a result of such currency hedging transactions.

In the case of an unhedged currency share class, a currency conversion will take place on subscriptions, redemptions, switches and distributions at prevailing exchange rates. The value of shares expressed in the share class currency will be subject to exchange rate risk in relation to the base currency.

m) Dividend policy

The Directors of the ICAV may declare dividends to be paid in respect of the Share Classes at their discretion. Where declared, dividends shall be paid out of net income (i.e. income less expenses) and/or realised gains net of realised and unrealised losses and/or realised and unrealised gains net of realised and unrealised losses and/or net income and realised gains net of realised and unrealised losses or net income and realised and unrealised gains net of realised and unrealised losses or net income and realised and unrealised gains net of realised and unrealised losses or net income and realised and unrealised gains net of realised and unrealised losses or net income and realised and unrealised gains net of realised and unrealised losses and/or capital. Dividends shall be distributed on a twice yearly basis on the last Business Day of June and December.

In the event that the net distributable income attributable to the relevant Share Class during the relevant period is insufficient to pay dividends as declared, the Directors may in their discretion determine such dividends be paid from capital. Investors should note that where the payment of dividends are paid out of capital, this represents and amounts to a return or withdrawal of part of the amount originally invested (excluding par value) or capital gains attributable to that, and may result in an immediate decrease in the value of the Shares of the relevant Class and will reduce any capital appreciation for the Shareholders of such Class.

For the year ended 30 June 2024

1. Significant Accounting Policies (Continued)

m) Dividend policy (Continued)

Dividends will be paid by electronic transfer within one month of the relevant declaration date. Each holder of Distributing Shares has the option to take dividends in cash or to reinvest in the Fund by allotment of additional Shares at the relevant Net Asset Value per Share. The Fund's default position unless specifically advised on the Application Form will be to reinvest dividends into the Shares of the Fund. Those Shareholders wishing to have their distribution automatically paid in cash should elect for such method when completing the Application Form.

Distributions are recognised as a finance cost in the Statement of Comprehensive Income when declared.

n) Receivables and payables

All receivables and payables fall due within one year. Trade and other creditors are payable at various dates in accordance with the suppliers usual and customary credit terms.

2. Taxation

The ICAV is an investment undertaking as defined in Section 739B of the Taxes Consolidation Act 1997, as amended ("TCA"). The ICAV and its Fund will not be liable to Irish tax in respect of its income and gains, other than on the occurrence of a chargeable event.

Generally, a chargeable event arises on any distribution, redemption, repurchase, cancellation, or transfer of shares or on the ending of a "Relevant Period". A "Relevant Period" being an eight year period beginning with the acquisition of the shares by the Shareholder and each subsequent period of eight years beginning immediately after the preceding Relevant Period.

A gain on a chargeable event does not arise in respect of:

- (i) A shareholder who is not an Irish resident and not ordinarily resident in Ireland at the time of the chargeable event provided the necessary signed statutory declarations are held by the ICAV and its Fund; or
- (ii) Certain exempted Irish resident investors who have provided the ICAV and its Fund with the necessary signed statutory declaration; or
- (iii) Any transactions in relation to shares held in a recognised clearing system as designated by order of the Revenue Commissioners of Ireland; or
- (iv) An exchange of shares representing one share class of the Fund for another share class of the Fund; or
- (v) An exchange of shares arising on a qualifying amalgamation or reconstruction of the ICAV with another investment undertaking; or
- (vi) Certain exchanges of shares between spouses and former spouses.

In the absence of an appropriate declaration, the ICAV and its Fund will be liable to Irish tax on the occurrence of a chargeable event. There were no chargeable events during the year or previous year.

Capital gains, dividends, and interest received by the Fund may be subject to withholding taxes imposed by the country of origin and such taxes may not be recoverable by the Fund or its shareholders.

For the year ended 30 June 2024

3. Net Gains on Financial Assets and Liabilities at Fair Value through Profit or Loss and Foreign Currencies

	ATLAS Global Infrastructure Fund Year ended 30 June 2024 USD	ATLAS Global Infrastructure Fund Year ended 30 June 2023 USD

4. Fees

Management Fees

The ICAV shall pay Waystone Management Company (IE) Limited (the "Manager") a fee which shall not exceed 0.035% of the Net Asset Value of the Fund subject to a minimum amount of \in 50,000 per annum. The management fee shall accrue and be calculated on each dealing day and paid quarterly in arrears out of the assets of the Fund. The Manager will also be entitled to be reimbursed out of the assets of the Fund for all its own reasonable out-of-pocket costs and expenses at normal commercial rates.

Management fees for the Fund, during the year, amounted to USD 567,342 (30 June 2023: USD 541,816), of which USD 122,684 (30 June 2023: USD 136,520) was payable at year end.

Investment Management Fees

Under the Investment Management Agreement, the ICAV shall pay ATLAS Infrastructure Partners (UK) Ltd. (the "Investment Manager") a fee as a percentage of the Net Asset Value of the Fund as set out in the table below. The investment management fee shall accrue and be calculated on each Dealing Day and paid monthly in arrears out of the assets of the Fund.

The Investment Manager will also be entitled to be reimbursed out of the assets of the Fund for all its own reasonable out-of-pocket costs and expenses at normal commercial rates.

For the year ended 30 June 2024

Investment management fees for the Fund, during the year, amounted to USD 8,250,182 (30 June 2023: USD 7,741,254), of which USD 2,074,523 (30 June 2023: USD 2,004,209) was payable at year end.

For the year ended 30 June 2024

4. Fees (Continued)

Administration Fees

The ICAV is responsible for the continuing fees of Northern Trust International Fund Administration Services (Ireland) Limited (the "Administrator") in accordance with the amended Administration Agreement dated 22 September 2017.

The Administrator is entitled to receive out of the assets of the Fund a fee at an annual rate:

- 0.07% of the Net Asset Value of the Fund on the first USD 150 million;
- 0.06% of the Net Asset Value of the Fund on the next USD 150 million;
- 0.05% of the Net Asset Value of the Fund on the next USD 200 million;
- 0.04% of the Net Asset Value of the Fund on the next USD 500 million;
- 0.03% of the Net Asset Value of the Fund on the next USD 1 billion; and
- 0.02% of the Net Asset Value of the Fund for any amount in excess of USD 2 billion.

The Fund is subject to a monthly minimum fee of USD 6,000 and USD 250 per share class. The administration fees shall accrue and be calculated on each dealing day and paid monthly in arrears out of the assets of the Fund.

The Administrator is also entitled to charge an annual fee to the Fund of up to USD 10,000 for the preparation of the annual and semi-annual financial statements.

Administration fees for the Fund during the year amounted to USD 940,582 (30 June 2023: USD 948,117), of which USD 68,408 (30 June 2023: USD 170,051) was payable at year end.

Depositary Fees

The ICAV is responsible for the continuing fees of Northern Trust Fiduciary Services (Ireland) Limited (the "Depositary") in accordance with the amended Depositary Agreement dated 15 June 2018.

The Depositary is entitled to receive out of the assets of the Fund a fee at an annual rate:

- 0.02% of the Net Asset Value of the Fund on the first USD 150 million;
- 0.0175% of the Net Asset Value of the Fund on the next USD 150 million;
- 0.015% of the Net Asset Value of the Fund on the next USD 200 million;
- 0.01% of the Net Asset Value of the Fund on the next USD 500 million; and
- 0.0075% of the Net Asset Value of the Fund for any amount in excess of USD 1 billion.

Each of the foregoing is subject to a monthly minimum fee of USD 2,500. The depositary fees shall accrue and be calculated on each Dealing Day and paid monthly in arrears out of the assets of the Fund.

In addition, the Fund shall pay or reimburse the Depositary in respect of all reasonable and properly vouched out-ofpocket expenses incurred by it, including (without limitation) all charges for postage, telephone and faxing incurred by the Depositary in the performance of duties under the Depositary Agreement.

The Depositary shall also be entitled to be repaid the fees, transaction charges and expenses of any sub-custodian appointed by it which shall be at normal commercial rates and subject to minimum annual custody fee of USD 30,000.

Depositary fees for the Fund, during the year, amounted to USD 212,942 (30 June 2023: USD 237,021), of which USD 15,526 (30 June 2023: USD 43,249) was payable at year end.

Custody fees for the Fund, during the year, amounted to USD 367,057 (30 June 2023: USD 374,544), of which USD 31,063 (30 June 2023: USD 62,839) was payable at year end.

For the year ended 30 June 2024

4. Fees (Continued)

Directors' Fees

The Directors will be entitled to remuneration for their services as Directors provided however that the aggregate emoluments of each Director in respect of any twelve month accounting period shall not exceed \notin 25,000 (plus VAT if applicable) and the aggregate emoluments of all Directors in respect of any twelve month accounting period shall not exceed \notin 50,000 (plus VAT if applicable). In addition, the Directors will also be entitled to be reimbursed for their reasonable out-of-pocket expenses incurred in discharging their duties as Directors.

The Directors who are connected with the Investment Manager have waived their right to receive a Director's fee.

Directors' fees for the Fund, during the year, amounted to USD 32,763 (30 June 2023: USD 30,673), of which USD Nil (30 June 2023: USD Nil) was payable at year end.

Auditor's Remuneration

The remuneration for all work carried out by the statutory audit firm in respect of the year is as follows:

	ATLAS Global Infrastructure Fund	ATLAS Global Infrastructure Fund
	USD	USD
	For year ended	For year ended
	30 June 2024	30 June 2023
Statutory audit (exclusive of VAT and out-of-pocket expenses)	33,287	40,900
Total	33,287	40,900

Investment Management Fee Rebate

The operating costs applicable to the shares classes will be capped at:

- 0.30% of the NAV of the share class for the Series A US Dollar Unhedged Share Class (Inc), Series A US Dollar Hedged Share Class (Inc), Series A EUR Unhedged Share Class (Inc), Series A EUR Hedged Share Class (Inc), Series A GBP Unhedged Share Class (Inc) and Series A GBP Hedged Share Class (Inc);
- 0.05% of the NAV of the share class for the Series A Australian Dollar Unhedged Share Class (Inc) and Series A Australian Dollar Hedged Share Class (Inc); and
- 0.10% of the NAV of the share class for the Series B EUR Unhedged Share Class (Inc), Series B EUR Hedged Share Class (Inc), Series B GBP Hedged Share Class (Inc), Series B US Dollar Unhedged Share Class (Inc), Series B US Dollar Unhedged Share Class (Inc), Series B USD Unhedged Share Class (Acc), Series B EUR Unhedged Share Class (Acc), Series B GBP Unhedged Share Class (Acc), Series B GBP Unhedged Share Class (Acc), Series C Class (Acc), Series C Class (Inc), Series C USD Unhedged Share Class (Inc), Series C USD Unhedged Share Class (Inc), Series C GBP Unhedged Share Class (Acc), Series C GBP Hedged Share Class (Acc), Series C GBP Hedged Share Class (Acc), Series C GBP Hedged Share Class (Inc), Series C GBP Unhedged Share Class (Acc), Series C GBP Hedged Share Class (Inc), Series C GBP Hedged Share Class (Acc), and Series R USD Unhedged Share Class (Acc).

These operating costs will include the fees and expenses of the Manager, Depositary, Administrator, fees and expenses of any other service provider, fees and expenses of any sub-custodian and any facilities agent (which will be at normal commercial rates), fees and expenses of the Directors, any fees in respect of circulating details of the NAV, company secretarial fees, any costs incurred in respect of meetings of shareholders, costs incurred in respect of the distribution of income to shareholders, the fees and expenses of any Paying Agent or representative appointed in compliance with the requirements of another jurisdiction (and at normal commercial rates), all sums payable in respect of Directors' and officers' liability insurance cover, the fees and expenses of the auditors, tax and legal advisers, the costs of printing and distributing the Prospectus, reports, accounts and any explanatory memoranda, any necessary translation fees, the costs of publishing prices and any costs incurred as a result of periodic updates of the Prospectus, or of a change in law or the introduction of any new law (including any costs incurred as a result of compliance with any applicable code, whether or not having the force of law). Fee rebates are paid by the Investment Manager.

For the year ended 30 June 2024

4. Fees (Continued)

Investment Management Fee Rebate (Continued)

The total Investment management fee rebate for the year was USD 919,790 (30 June 2023: USD 931,920) with USD 258,302 (30 June 2023: USD 339,629) receivable at year end.

Transaction Costs

The Fund incurred transaction costs of USD 1,770,175 (30 June 2023: USD 2,719,880) and is included in the net (losses)/gains on financial assets and liabilities at fair value through profit or loss under the Statement of Comprehensive Income.

8. Cash and Cash Equivalents

As at 30 June 2024, the Fund held cash of USD 26,911,840 (30 June 2023: USD 44,980,163) with The Northern Trust Company ("TNTC"). TNTC is a wholly owned subsidiary of Northern Trust Corporation. As at 30 June 2024, Northern Trust Corporation had a long-term rating from Standard & Poor's of A+ (30 June 2023: A+). There were no bank overdrafts as at 30 June 2024 or 30 June 2023.

9. Financial Risk Management

Strategy in using Financial Instruments

The ICAV consists of one sub-fund. The overall objective of the Fund is to provide income and capital appreciation over the long-term.

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and foreign currency risk), credit risk and liquidity risk. The ICAV's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Fund's financial performance. The Fund may use derivative financial instruments to moderate certain risk exposures.

The Investment Manager assesses the risk profile of the Fund on the basis of the investment policy, strategy and the use made of financial derivative instruments. The Fund employs the commitment approach to measure its global exposure. The global exposure of the Fund will not exceed its total NAV at any time.

Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices.

The Investment Manager moderates market risk through careful selection of securities and other financial instruments within specified limits. The Fund has exposure to some of the above risks to generate investment returns on its portfolio, although these risks can also potentially result in a reduction in the Fund's assets. The Fund's overall market position is monitored on a daily basis by the Fund's Investment Manager and is reviewed on a regular basis by the Manager.

As at 30 June 2024, the Fund's market risk is affected by three components:

- (i) changes in actual equity prices ("market price risk");
- (ii) interest rate movements ("interest rate risk"); and
- (iii) foreign currency movements ("foreign currency risk").

For the year ended 30 June 2024

9. Financial Risk Management (Continued)

Market Risk (Continued)

(i) Market Price Risk

Market price risk is the risk that the value of an instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether caused by factors specific to an individual investment, its issuer or all factors affecting all instruments traded in the market.

The Fund's investments are susceptible to price risk arising from uncertainties about future prices of the instruments. The Fund's market price risk is managed primarily by ensuring the portfolio is adequately diversified across a sufficiently high number of equity and equity-related securities.

As at 30 June 2024, the Fund holds 97.78% (30 June 2023: 97.01%) of its NAV in equity related securities.

As at 30 June 2024, the Fund holds 26.91% (30 June 2023: 27.36%) of its NAV in the United States, 19.77% (30 June 2023: 15.84%) of its NAV in the United Kingdom and 16.33% of its NAV in Italy (30 June 2023: 20.09%).

The Fund's underlying investments which consist of equities are subject to market price risk. The sectoral breakdown of these securities as a percentage of the Net Asset Value is disclosed within the Schedule of Investments.

If the price of the Fund's underlying investments to which the Fund had exposure at 30 June 2024 had increased by 5% with all other variables held constant, the impact would have been an increase in the net assets attributable to holders of redeemable participating shares of USD 87,466,335 (30 June 2023: USD 98,761,041). Conversely, if the price of the Fund's underlying investments to which the Fund had exposure had decreased by 5% at 30 June 2024 this would have had an equal but opposite effect on the net assets attributable to holders of redeemable participating shares of the Fund.

(ii) Interest Rate Risk

Interest rate risk is defined as the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The majority of the Fund's assets are invested in equities which don't pay interest. As a result, the Fund is subject to limited risk due to the impact of fluctuations in the prevailing levels of market interest rates on these investments.

As at 30 June 2024, the Fund held 1.50% (30 June 2023: 2.21%) of its NAV in cash.

(iii) Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Certain assets, liabilities and income of the Fund are denominated in currencies other than US Dollar. The Fund is, therefore, exposed to currency risk as the value of the assets or liabilities denominated in other currencies will fluctuate due to changes in exchange rates.

In accordance with ICAV's policy, the Investment Manager monitors the currency position of the Fund on a daily basis and the Manager reviews it on a regular basis.

For the year ended 30 June 2024

Credit Risk

Northern Trust Fiduciary Services (Ireland) Limited ("NTFSIL") is the appointed Depositary of the ICAV, responsible for the safe-keeping of assets. NTFSIL has appointed The Northern Trust Company as its global subcustodian. Both NTFSIL and TNTC are wholly owned subsidiaries of Northern Trust Corporation ("NTC"). As at 30 June 2024, NTC had a long-term credit rating from Standard & Poor's of A+ (30 June 2023: A+).

TNTC (as global sub-custodian of NTFSIL) does not appoint external sub-custodians within the U.S., the U.K., Ireland, Canada, Belgium, France, Germany, Netherlands and Saudi Arabia. However, in all other markets, TNTC appoints local external sub-custodians.

NTFSIL, in the discharge of its depositary duties, verifies the ICAV's ownership of other assets, (as defined under Other Assets, Art 22(5) of UCITS V Directive 2014/91/EU), by assessing whether the ICAV holds the ownership based on information or documents provided by the ICAV or where available, on external evidence.

For the year ended 30 June 2024

9. Financial Risk Management (Continued)

Credit Risk (Continued)

TNTC, in the discharge of its delegated depositary duties, holds in custody (i) all financial instruments that may be registered in a financial instruments account opened on the books of TNTC and (ii) all financial instruments that can be physically delivered to TNTC. TNTC ensures all financial instruments (held in a financial instruments account on the books of TNTC) are held in segregated accounts in the name of the ICAV, clearly identifiable as belonging to the ICAV, and distinct and separately from the proprietary assets of TNTC, NTFSIL and NTC.

In addition, TNTC as banker, holds the cash of the ICAV on deposit. Such cash is held on the Statement of Financial Position of TNTC. In the event of insolvency of TNTC, in accordance with standard banking practice, the ICAV will rank as an unsecured creditor of TNTC in respect of any cash deposits.

Where relevant please note the following currencies, Jordanian Dinar, Saudi Riyal, cash in the onshore China market (principally the currency of Chinese Yuan Renminbi, and any other currencies remitted into accounts in the onshore China market), are no longer held on the Balance Sheet of TNTC. For these off-book currencies, clients' cash exposure is directly to the relevant local sub-custodian/financial institution in the market.

Insolvency of NTFSIL and or one of its agents or affiliates may cause the Fund's rights with respect to its assets to be delayed.

The Responsible Party ("the Manager or its delegate(s)") manages risk by monitoring the credit quality and financial position of the Depositary and such risk is further managed by the Depositary monitoring the credit quality and financial positions of sub-custodian appointments.

Liquidity Risk

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous. The Investment Manager manages the Fund's liquidity risk. The ICAV may borrow monies on behalf of the Fund and may leverage the assets of the Fund. Leverage may be obtained for the Fund through borrowing for general liquidity purposes. The Fund may be leveraged up to 10% of its NAV calculated in accordance with the commitment methodology.

The main liability of the Fund is the redemption of any redeemable participating shares that investors wish to sell. The Fund's supplement provides for the daily creation and cancellation of Shares and it is therefore exposed to the liquidity risk of meeting shareholder redemptions at any time. The Fund's financial instruments include investments in equities, which can normally be easily liquidated at an amount close to fair value in order to meet liquidity requirements.

The Fund may, from time to time, invest in derivative contracts traded over the counter, which are not traded in an organised market and may be illiquid. As a result, the Fund may not be able to liquidate quickly its investments in these instruments at an amount close to their fair value to meet its liquidity requirements or to respond to specific events such as deterioration in the creditworthiness of any particular issuer.

In accordance with the ICAV's policy, the Investment Manager and the Manager monitor the Fund's liquidity risk on a periodic basis.

The tables overleaf analyse the Fund's financial liabilities on the basis of earliest possible maturity based on the remaining period at the reporting date to the contractual maturity date. The amounts in the tables are the contractual undiscounted cash flows. Balances due within twelve months equal their carrying balances as the impact of discounting is not significant.

For the year ended 30 June 2024

10. Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to settle a liability in an orderly transaction between market participants at the date of measurement. Investments held by the Fund are measured at fair value through profit or loss and are therefore affected by inputs to valuation techniques used in arriving at that fair value.

Most of the Fund's financial instruments are carried at fair value through profit or loss on the Statement of Financial Position. Usually, the fair value of the financial instruments can be reliably determined within a reasonable range of estimates. For certain other financial instruments, including amounts for cash and cash equivalents, cash collateral, receivables and payables, the carrying amounts approximate fair value due to the immediate or short-term nature of these financial instruments. The carrying value of all the Fund's financial assets and liabilities at the statement of financial position date approximate their fair values.

In order to evaluate the nature and extent of risk arising from the valuation of these investments they have been arranged, in accordance with IFRS, into a hierarchy giving the highest priority to unadjusted prices in active markets (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement).

The three levels of the fair value hierarchy are as follows:

- Level 1: Quoted price (unadjusted) in an active market for an identical instrument;
- Level 2: Valuation techniques based on observable inputs, either directly (for example as prices) or indirectly (for example derived from prices). This category includes instruments valued using: quoted prices in active markets for similar instruments, quoted prices for identical or similar instruments in markets that are considered less than active or valuation techniques for which all significant inputs are directly or indirectly observable from market data; and
- Level 3: Valuation techniques using significant unobservable inputs. This category includes all instruments for which the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the investment's valuation. This category includes instruments that are valued based on quoted prices for similar instruments for which significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

For the year ended 30 June 2024

10. Fair Value Measurement (Continued)

Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk. Inputs may include price information, volatility statistics, specific and broad credit data, liquidity statistics and other factors. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The determination of what constitutes 'observable' requires significant judgement by the Fund. The Fund considers observable data to be that market data which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The categorisation of a financial instrument within the hierarchy is based upon the pricing transparency of the instrument and does not necessarily correspond to the Fund's perceived risk of that instrument.

Financial instruments whose values are based on quoted market prices in active markets are therefore classified within Level 1.

Financial instruments that trade in markets that are not considered to be active, but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. These include certain financial derivative instruments where the price is calculated internally using observable data. Financial instruments classified as Level 2 traded in markets may be adjusted to reflect illiquidity, such adjustments are based on available market information. All other unquoted instruments are classified into Level 3 by default.

The following tables present the financial instruments carried on the Statement of Financial Position at fair value by level within the valuation hierarchy under IFRS 13 "Fair Value Measurement" as at 30 June 2024 and 30 June 2023:

ATLAS Global Infrastructure Fund As at 30 June 2024

There have been no transfers between Level 1, Level 2 or Level 3 assets or liabilities held during the year or at year end (30 June 2023: Nil).

No investments have been classified within Level 3 at any time during the year (30 June 2023: Nil).

Financial Assets and Liabilities not measured at Fair Value

The financial assets and liabilities not measured at fair value through profit or loss are short-term financial assets and financial liabilities whose carrying amounts approximate fair value. Cash and cash equivalents are categorised as Level 1 and all other financial assets and liabilities not measured at fair value through profit or loss are categorised as Level 2 in the fair value hierarchy.

11. Exchange Rates

The exchange rates used to translate foreign currency balances and foreign currency-denominated assets and liabilities to US Dollar at 30 June 2024 and 30 June 2023 were as follows:

	As at	
	30 June 2024	30 June 2023

14. Related Party Transactions

IAS 24 'Related Party Disclosures' requires the disclosure of information relating to material transactions with parties who are deemed to be related to the Fund.

The Investment Manager of the ICAV is ATLAS Infrastructure Partners (UK) Limited. Under the terms of the investment management agreement, the Investment Manager is responsible, subject to the overall supervision and control of the Directors, for the day-to-day investment management of the portfolio of the Fund.

The Money Laundering Reporting Officer ("MLRO") and Secretary of the ICAV are employees of Clifton Fund Consulting Limited which is part of the same economic group as the Manager.

During the year ended 30 June 2024, professional fees in relation to MLRO fees, Payroll fees, Beneficial Ownership Register (BOR) services and VAT service fees charged by Clifton Fund Consulting Limited amounted to USD 14,826 (30 June 2023: USD 13,533) of which USD 3,673 (30 June 2023: USD 3,739) was payable at the year end. The Secretary fees amounted to USD 15,298 (30 June 2023: USD 10,023) of which USD 3,296 (30 June 2023: USD 2,380) was payable at the year end.

GIM ATLAS LLC, Global Infrastructure Management LLP and GIP Founding partners ("GIP") are related parties to the Investment Manager and are currently invested in the Fund. As at 30 June 2024, three partners of GIP had a combined 1.77% holding in the Fund (30 June 2023: 1.59%).

Charles Kirwan-Taylor is the Executive Chairman of ATLAS, an investor in the Fund and a Director of the Investment Manager. Carl Chambers is a Director of the ICAV and is Compliance Officer of the Investment Manager. Clinton Joyner is a Director of the ICAV. He is also a Partner, Chief Operating Officer and a Director of the Investment Manager.

Stephen Finn, a Director of the ICAV, is an employee of the Manager.

Charles Kirwan-Taylor had 3,647.47 shares in the Series A GBP Unhedged Share Class (Inc) (30 June 2023: 3,490.15) and 992.82 shares in the Series A GBP Hedged Share Class (Inc) of the Fund as at 30 June 2024 (30 June 2023: 950.52).

None of the remaining Directors of the ICAV hold or held shares in the Fund during the year ended 30 June 2024 (2023: same). Rod Chisholm is a Director of the Investment Manager and held 3,830.11 shares in Series A GBP Unhedged Share Class (Inc) as at 30 June 2024 (30 June 2023: 3,664.91).

The fees charged by the Manager, Investment Manager and Directors are disclosed in Note 4 to the financial statements.

As at 30 June 2024, the ATLAS Infrastructure Australian Feeder Fund has a holding worth 30% of the ATLAS Global Infrastructure UCITS ICAV (30 June 2023: 36%).

For the year ended 30 June 2024

16. Soft commissions and Directed Brokerage Services

There were no soft commissions or directed brokerage service arrangements in place during the year ended 30 June 2024 or year ended 30 June 2023.

For the year ended 30 June 2024

17. Efficient Portfolio Management

The Investment Manager may utilise derivatives and other techniques and instruments (including, but not limited to forward contracts and warrants) whether the intention is of providing protection against risks or of gaining exposure to certain markets, sectors or securities, or otherwise of increasing the return on the assets of the Fund.

Such derivatives and other techniques and instruments will only be used for efficient portfolio management purposes in accordance with the conditions and limits laid down by the Central Bank. The Fund used forward contracts to hedge currency exposures at Share class level during the years ended 30 June 2024 and 30 June 2023. Losses from forward contracts may arise from unfavorable changes in currency values.

The Investment Manager may also, when facilities become available in the relevant markets, lend the Portfolio securities and/or purchase securities subject to repurchase agreements. No securities lending occurred and no securities were purchased subject to repurchase agreements during the year ended 30 June 2024 or 30 June 2023.

18. Net Asset Value reconciliation

	ATLAS Global Infrastructure Fund USD As at 30 June 2024	ATLAS Global Infrastructure Fund USD As at 30 June 2023
Dealing Net Asset Value as at the beginning of the year Less: adjustment for late deals	1,782,387,780	2,036,129,095
Subscriptions	6,808,442	153,737
Redemptions	(355,158)	(195,791)
Net Asset Value reported to Shareholders as at the end of the year	1,788,841,064	2,036,087,041

19. Significant Events During the Year

On 29 September 2023, KBA Consulting Management Limited, the Manager of the ICAV, completed its merger with Waystone Management Company (IE) Limited ("WMC"). WMC is the surviving entity post-merger and as such, the ICAV's Manager is WMC from this date.

Series B EUR Hedged Share Class (Inc) and Series B EUR Unhedged Share Class (Acc) launched on 5 December 2023. Series C EUR Unhedged Share Class (Inc) launched on 17 July 2023. Series B USD Unhedged Share Class (Acc) launched on 18 October 2023. Series B GBP Unhedged Share Class (Acc) and Series B GBP Hedged Share Class (Acc) launched on 7 December 2023. The schedule of significant portfolio movements reflects the material changes in the portfolio which is defined as the aggregate purchases of a security exceeding 1 per cent of the total value of purchases for the financial year and/or aggregate disposals greater than 1 per cent of the total value of disposals for the financial year. If there are fewer than 20 purchases/disposals that meet the material changes definition, the Sub-Fund shall disclose those purchases/disposals and such number of the next largest purchases/disposals so at least 20 purchases/sales are disclosed.

Appendix 1 – UCITS V Remuneration Disclosures (Unaudited)

The Manager has designed and implemented a remuneration policy (the "Policy") in line with the provisions of S.I. 257 of 2013 European Union (Alternative Investment Fund Managers) Regulations 2013 (the "AIFM Regulations"), S.I. 352 of 2011 European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations") and of the ESMA Guidelines on sound remuneration policies under the UCITS Directive and AIFMD (the "ESMA Guidelines"). The Policy is designed to ensure that the remuneration of key decision makers is aligned with the management of short and long-term risks, including the oversight and where appropriate the management of sustainability risks in line with the Sustainable Finance Disclosure Regulations.

The Manager's remuneration policy applies to its identified staff whose professional activities might have a material impact on the ICAV's risk profile and so covers senior management, risk takers, control functions and any employees receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers and whose professional activities have a material impact on the risk profile of the ICAV. The Manager's policy is to pay identified staff a fixed component with the potential for identified staff to receive a variable component. It is intended that the fixed component will represent a sufficiently high proportion of the total remuneration of the individual to allow the Manager to operate a fully flexible policy, with the possibility of not paying any variable component. When the Manager pays a variable component as performance related pay certain criteria, as set out in the Manager's remuneration policy, must be adhered to. The various remuneration components are combined to ensure an appropriate and balanced remuneration package that reflects the relevant staff rank and professional activity as well as best market practice. The Manager's remuneration policy is consistent with, and promotes, sound and effective risk management and does not encourage risk-taking which is inconsistent with the risk profile of the funds it manages.

ATLAS Infrastructure Partners (UK) Limited (the "Investment Manager") is subject to regulatory requirements on remuneration under the MIFID and it adheres to the requirements regarding remuneration which apply to it under SYSC

19 of the UK FCA Rules and the UCITS Regulations. Note 9 to the financial statements describes the risks associated with investing in the ICAV. For additional information regarding the ICAV's risk profile and information regarding how the Manager and Investment Manager seeks to manage conflicts of interest, please refer to the ICAV's Prospectus.

The Investment Manager is subject to regulatory requirements on remuneration under the Financial Conduct Authority that are equally as effective as those applicable to the Manager pursuant to the UCITS Regulations .

These disclosures are made in respect of the remuneration policies of the Manager. The disclosures are made in accordance with the ESMA Guidelines.

Total remuneration (in EUR) paid to the identified staff of the Manager fully or partly involved in the activities of the ICAV that have a material impact on the ICAV's risk profile during the financial year to 31 December 2023 (the Manager's financial year):

	31 December 2023
Fixed remuneration	EUR
Senior management	1,578,804
Other identified staff	-
Variable remuneration	
Senior management	28,006
Other identified staff	-
Total remuneration paid	1,606,810

No. of identified staff: 17

Neither the Manager nor the ICAV pays any fixed or variable remuneration to identified staff of the Investment Manager.

On 29 September 2023, KBA Consulting Management Limited, the Manager of the ICAV, completed its merger with Waystone Management Company (IE) Limited ("WMC"). WMC is the surviving entity post-merger and as such, the ICAV's Manager is WMC from this date and the above remuneration figures are the total remuneration for WMC.

There have been no material changes made to the Remuneration Policy or the Manager's remuneration practices and procedures during the financial year.

Appendix 1 – UCITS V Remuneration Disclosures (Unaudited) (Continued)

Remuneration Disclosure of the Investment Manager

The Investment Manager has remuneration policies and practices which apply to its staff whose professional activities might have a material impact on the ICAV's risk profile and so covers senior management, risk takers, control functions and any employees receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers and whose professional activities have a material impact on the risk profile of the ICAV ("Identified Staff") which it believes are: (i) consistent with and promote sound and effective risk management and do not encourage risk-taking which is inconsistent with the investment objectives and policies and the investment restrictions of the ICAV and (ii) appropriate to the size, internal organisation and the nature, scope and complexity of the Investment Manager's activities.

Total remuneration paid to the staff of the Investment Manager fully or partly involved in the activities of the ICAV that have a material impact on the ICAV's risk profile during the year to 30 June 2024:

	30 June 2024
Fixed remuneration	EUR
Senior management	1,835,458
Other identified staff	-
Variable remuneration	
Senior management	847,971
Other identified staff	-
Total remuneration paid	2,683,429

No. of beneficiaries: 6

Appendix 2 – Securities Financing Transactions Disclosure (Unaudited)

A Securities Financing Transaction ("SFT") is defined as per Article 3(11) of the Securities Financing Transactions Regulation as:

a repurchase transaction; securities or commodities lending and securities or commodities borrowing; a buy-sell back transaction or sell-buy back transaction; or a margin lending transaction.

UCITS are required to disclose the use of SFTs.

For the year ended 30 June 2024 or prior year ended 30 June 2023, the ATLAS Global Infrastructure UCITS ICAV did not trade in any SFTs.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Environmental and/or social characteristics

Legal entity identifier: 213800C2NA8TIT5CYZ71

Product name: ATLAS Global Infrastructure Fund

Sustainable

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. **That Regulation** does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by the ATLAS Global Infrastructure Fund (the "**Fund**") included:

1. Greenhouse Gas ("GHG") emissions reduction

Under the Net Zero Asset Manager's (**"NZAM"**) initiative, the Investment Manager (ATLAS Infrastructure Partners (UK) Ltd.) has committed to achieving net zero emissions across all of

the Fund's investments by 2050 and has set an interim 2030 target to align with this goal. The interim 2030 target includes a minimum GHG emissions reduction goal of 39.2% by 2030 relative to 2019 levels or a 4.4% annualised reduction over the period.

As of 30 June 2024, the GHG emisisons of portfolio companies were 39% lower than the 2019 baseline compared to the minimum reduction target of 21% by 31 December 2024, which was set based on the annualised reduction rate of 4.4% required to achieve our cumulative emissions reduction target of 39.2% by 2030 relative to 2019 levels, applied over the period 2019 to 2023.

The **Investment Manager** also incorporated the Science Based Targets initiative ("**SBTi**") methodology for emissions reduction pathways for assets in the investment universe. Where a Sector Decarbonisation Approach ("**SDA**") is available with specific pathways for assets these are utilised, otherwise an Absolute Contraction approach is applied. The SDA is currently used for electricity generation, transport assets, and communications assets. The Absolute Contraction approach targets a fixed reduction in emissions by the end of 2030 (30% and 60% reductions vs 2019 for Below 2 Degrees and 1.5 Degree scenarios, respectively) and 2050 (100% reductions for both scenarios).

2. Paris Agreement alignment

The Investment Manager was a founding signatory of the Net Zero Asset Manager's Paris Aligned Investment Initiative ("**PAII**") in December 2020. Under the PAII framework, the Investment Manager is required to assess investments' performance categorically. As part of the Investment Manager's implementation of the IIGCC PAII methodology. The Investment Manager classifies all portfolio and investment universe companies into one of four alignment categories based on a combination of:

- Scope 1 and 2 emissions trajectory vs Science-Based Targets consistent with limiting global warming to at least Well-Below 2 Degrees but ideally to below 1.5 Degrees
- Broad Scope 3 ("Network Emissions") performance
- Company strategy including investment alignment, management alignment and governance

From these, the Investment Manager determines an overall Final Classification for the company: Net Zero Aligned (**"Tier 1"**); Aligned to a Pathway (**"Tier 2"**); Potential to Transition (**"Tier 3"**) with material changes to company activities; or Misaligned (**"Tier 4"**). The Investment Manager collects data for the portfolio companies and for the investment universe and review the classifications at least bi-annually.

The Fund aims to be at least 70% invested in companies in Paris alignment Tier 1 or 2 or under engagement, increasing to 100% in Tier 1 or 2 or under engagement by 2030. Over the period

1 July 2023 to 30 June 2024 (the **"reporting period")**, this target was met and on average 81% of the Fund was invested in companies classified in Tiers 1 or 2 or under engagement.¹

3. Contribution to other environmental and social objectives – climate mitigation and adaption (EU Taxonomy) and other (UN Sustainable Development Goals)

Over the reporting period, on average 70% of the Fund was aligned with the EU Taxonomy on a capital expenditure ("**capex**") basis, based on the Technical Screening Criteria. These investments promoted one or more of the environmental characteristics of climate mitigation and climate adaption.

EU Taxonomy alignment data was calculated based on the regulatory technical standards ("**RTS**") and sourced in line with the Investment Manager's policy available on the Investment Manager's website https://www.atlasinfrastructure.com/esg/

Over the reporting period, 85% of the Fund's investments were aligned with one or more United Nations Sustainable Development Goals ("**UN SDGs**") on a capex basis. UN SDGs promote 17 environmental and social objectives as part of a United Nation's initiative to guide sustainable and equitable human development around the world.

• How did the sustainability indicators perform?

1. Greenhouse Gas emissions reduction

Under the Net Zero Asset Manager's initiative, the Investment Manager has committed to achieving net zero emissions across all of the Fund's investments by 2050 and has set an interim 2030 target to align with this goal.

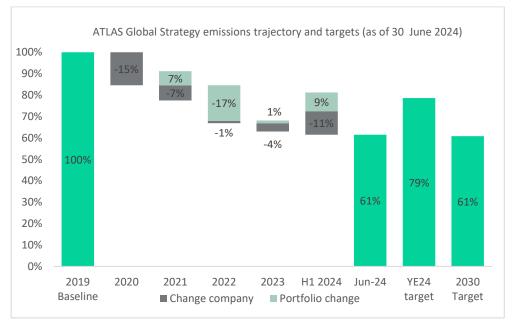

The Fund's portfolio baseline emissions are set using the 2019 EVIC accounted Scope 1 & 2 emissions for the portfolio as comprised at the end of the 2020 calendar year, when the Investment Manager first set a target. The target is set based on the Below 2 Degrees Scenario ("**B2DS**") as modelled by the SBTi, which would equate to a target reduction of -39.2% by 2030 relative to 2019 levels.

The changes over time are shown disaggregated by portfolio composition change ("**portfolio change**") and how emissions projections of companies held have changed ("**company change**"). Until a company releases their emissions data, and a model is updated, emissions projections reflect the Investment Manager's assumptions.

As of 30 June 2024, the GHG emisisons of portfolio companies were 39% lower than the 2019 baseline compared to the minimum reduction target of 21% by 31

¹ Since the last reporting period we have updated how this metric is calculated. It now reflects the share of the portfolio that is invested in companies in Tiers 1 and 2. Previously, it reflected the share of portolio companies in Tiers 1 and 2 and therefore did not take into account portfolio weightings. In the Periodic Disclosure for the year-ending 30 June 2023, we reported a value of 71%. Under the new methodlogy this value would have been 74%.

December 2024, which was calculated based on the annualised reduction rate of 4.4% required to achieve our cumulative emissions reduction target of 39.2% by 2030 relative to 2019 levels.

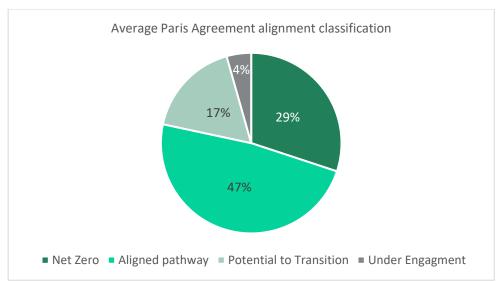

Source: ATLAS Infrastructure

2. Paris Agreement alignment

Under the PAII framework, The Investment Manager is required to assess investments' performance categorically. As part of the Investment Manager's implementation of the IIGCC PAII methodology, portfolio and investment universe companies are classified into one of four alignment categories based on the classification system outlined above.

The Investment Manager's Global Strategy is to be at least 70% invested in companies in the Net Zero Aligned (**"Tier 1"**) or Aligned to a Pathway (**"Tier 2"**), or under engagement, increasing to 100% in Tier 1 or 2 or under engagement by 2030.

The Investment Manager estimated that over the reporting period, 81% of the portfolio was invested in companies classified in Tiers 1 or 2 or were under engagement, on a share of assets under management basis:

Source: ATLAS Infrastructure. Average calculated based on the Fund's portfolio on five snapshot dates: 1 July 2023, 30 Sep 2023, 31 Dec 2023, 31 Mar 2024, 30 Jun 2024.

...and compared to previous periods?

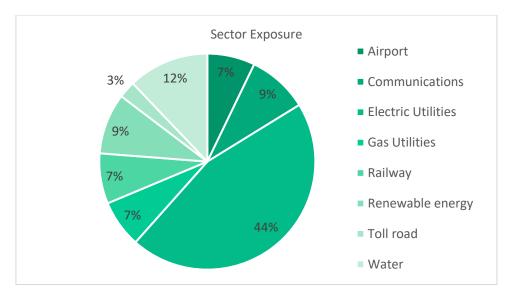

At the end of the previous reporting period, 30 June 2023, the GHG emisisons of portfolio companies were 31% lower than the 2019 baseline compared to the minimum reduction target of 18% by 31 December 2023, which was calculated based on the annualsed reduction rate of 4.4% required to achieve our cumulative emissions reduction target of 39.2% by 2030 relative to 2019 levels.

Over the previous reporting period ending 30 June 2023, on average 74% of the portfolio was invested in companies classified in Tiers 1 or 2 or were under engagement, on a share of assets under management basis. This compares to 81% over the latest period ending 30 June 2024.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives

The Fund partially invested in sustainable investments as defined in Article 2(17) of SFDR. These sustainable investments made a material contribution to one or more of the UN Sustainable Development Goals ("**SDGs**").

Over the reporting period, the average portfolio was invested in the following infrastructure sub-sectors, whose estimated contribution to the UN SDGs is shown in the following table.

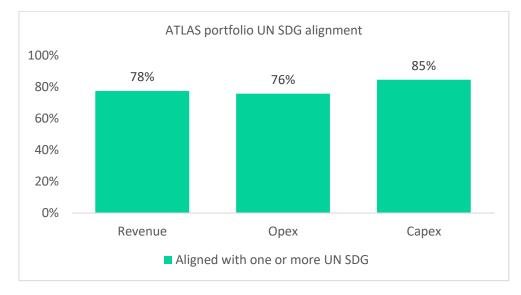

Source: ATLAS Infrastructure. Average calculated based on the Fund's portfolio on five snapshot dates: 1 July 2023, 30 Sep 2023, 31 Dec 2023, 31 Mar 2024, 30 Jun 2024.

The contribution to UN SDGs by infrastructure sub-sectors has been estimated by the Investment Manager as follows:

Infrastructure activities	UN SDG(s)	Sub criteria, inclusions & exclusions applied by the Fund
Airports, Toll Roads, Rail, Seaports	9	9.1) "Develop quality, reliable, sustainable and resilient infrastructure, support economic development and human well-being, with a focus on affordable and equitable access for all" Must meet "quality, reliability, sustainability, resiliency and affordability" thresholds. Only transport activities aligned (commercial activities not aligned)
Water	6	 6.1) "By 2030, achieve universal and equitable access to safe and affordable drinking water for all". 6.3) "By 2030, improve water quality by reducing pollution, eliminating dumping and minimizing release of hazardous chemicals and materials"
Waste	11,12	 11.6) "By 2030, reduce the adverse per capita environmental impact of cities, including by paying special attention to air quality and municipal and other waste management". 12.4) "achieve the environmentally sound management of chemicals all wastes throughout their life cycle"
Communications (satellite, network, cable & towers)	9	9.c) "Significantly increase access to information and communications technology and strive to provide universal and affordable access to the Internet"
Electric Networks (transmission & distribution)	7,9	7.1) "ensure universal access to affordable, reliable and modern energy services".

Infrastructure activities	UN SDG(s)	Sub criteria, inclusions & exclusions applied by the Fund
		9.1) "Develop quality, reliable, sustainable and resilient infrastructure, including regional and trans-border infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all"
Renewable Energy	7	7.2) "By 2030, increase substantially the share of renewable energy in the global energy mix"

Over the reporting period, 85% of the Fund was invested in companies aligned with one or more UN SDGs on a capex basis. The estimated average alignment of the portfolio with one or more UN SDGs on the basis of capex and other metrics over the reporting period is shown below.

Source: ATLAS Infrastructure. Average calculated based the Fund's portfolio on five snapshot dates: 1 July 2023, 30 Sep 2023, 31 Dec 2023, 31 Mar 2024, 30 Jun 2024.

The Fund also contributed towards one or more of the environmental characteristics of climate mitigation and climate adaption: Over the reporting period, on average 70% of the portfolio was aligned with the EU Taxonomy on a capex basis.

EU Taxonomy alignment data was calculated based on the RTS and sourced in line with the Investment Manager's policy available on the Investment Manager's website https://www.atlasinfrastructure.com/esg/

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager sought to ensure that the investments in the Fund did no significant harm ("**DNSH**") to any environmental or social objectives. There are three ways in which an asset is assessed against the risk of causing significant harm to environmental or social objectives:

- As part of the Investment Manager's climate alignment metrics, all companies within the Fund's portfolio were categorised into one of four tiers. Any Misaligned assets ("Tier 4") were considered as being of significant harm to environmental objectives. The portfolio was not exposed to Tier 4 companies over the reporting period;
- 2. Assets were also assessed against the 14 mandatory and 2 optional Principal Adverse Indicators ("PAI") deemed to be relevant for the Investment Manager's investment universe, whereby any adverse outcomes or changes were investigated as part of the due diligence process and any potential areas of significant harm were identified. The two optional indicators assessed were "Operations and Suppliers Exposed to Forced or Compulsary Labour" and "Rate of Accidents". Based on the Investment Manager's monitoring and investigation of these PAIs, no significant harm was identified over the reporting period;
- 3. In support of the above processes, the Investment Manager also monitored third party ESG qualitative and quantitative data relating to the PAIs and other impact metrics to identify any additional potential adverse impacts and investigated any material signals through the due diligence process.

More detail on the above processes and outcomes during the reporting period are provided below.

Paris Agreement alignment:

Over the reporting period, the Fund on average had no exposure to Misaligned ("**Tier 4**") investee companies that could be considered as being of significant harm to environmental objectives.

Principal Adverse Impacts monitoring:

The Investment Manager monitors against the PAI indicators and currently reports against the 14 mandatory indicators and 2 optional indicators that have been identified as relevant to the investment universe.

The Investment Manager reviewed portfolio company performance and risk exposure against PAI 1-14 through internal due diligence as well as specialist external data providers. Portfolio company performance and risk exposure was monitored on a weekly basis by the Investment Manager's Investment Committee and any issues identified were then reviewed by the Investment Manager's investment team and, if deemed potentially material, would result in a formal PAI investigation.

Over the reporting period, the Investment Manager closed three PAI-related investigations relating to portfolio companies, launched as a result of potential breaches identified during weekly monitoring. A US rail company was investigated under PAI 7 & 8 following a train derailment. Two UK Water companies were investigated under PAI 8 following extensive accusations of unauthorised sewage discharges. In all cases, ATLAS found insufficient evidence of management responsibility for adverse impact or Do No Significant Harm breaches.

— How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager identified, prioritised and incorporated mandatory PAI 1-14 in addition to two optional indicators deemed relevant for the investment universe as follows:

- quantitative and qualitative information from the third-party ESG data providers was reviewed for the Fund's portfolio of companies on a weekly basis;
- identified where there is a material risk or change in risk under a PAI. The thresholds for material risk used are partly quantitative including the company's PAI relative to the investment universe average—and partly qualitative based on monitoring of newsflow that may not be immediately reflected in quantitative assessments;
- determinations were recorded internally on the research management system, including any follow up with portfolio company management and whether or not the issue is raised as part of a formal engagement with the company;
- determinations were also recorded against the company taxonomy classification where it was relevant to the Do No Significant Harm ('DNSH') screening criteria; and
- determinations were also used to determine the eligibility of the asset as a sustainable investment

Over the reporting period, the Investment Manager closed three separate company PAI investigations, relating to portfolio companies. A US rail company was investigated under PAI 7 & 8 following a train derailment. Two UK Water companies were investigated under PAI 8 following extensive accusations of unauthorised sewage discharges. In all cases, ATLAS found insufficient evidence of management responsibility for adverse impact or Do No Significant Harm breaches.

Principal adverse impacts are the

most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

Company	Headline	Investigation status	Adverse Sustainability Indicator	Comment	Outcome
Water Companies 1 and 2	Sewage discharges into rivers	Closed 7 Mar 2024	8. Emissions to water	Raw sewage was pumped directly into water	Conclusion that there is no clear evidence of systemic poor decisions by management leading to potential pollution. The company appears to have added storage capacity, enhanced existing facilities, had above-sector average environmental rankings, have not had treatment volumes decline and also reinvested the Totex efficiencies into the business in the historical regulatory periods.
US Rail Company	Train derailment	Closed 18 Oct 2023	7. Activities negatively affecting biodiversity sensitive areas	Reports and anecdotal accounts of dead fish being found in nearby waterways. Burning of chemicals may have released hazardous gases into airways.	The engagement did not find any evidence that the company has been taking actions that may have adversely impacted safety and directly contributed to the derailment. The provisional NTSB report into the accident found no fault with Norfolk Southern
			8. Emissions to water	Media reporting emissions from the derailment may have run into nearby waterways.	operations or procedures that would have contributed to the accident. Our analysis of the longer term safety performance of NSC vs the sector has concluded that the company is performing in line or better than peers.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Manager screened potential investments against violations of the UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights using external ESG data service providers and any companies with material violations were excluded unless due diligence established that that violation had been fully remedied by a company and there was limited risk of the violation happening again. Over the reporting period, the Investment Manager compared the portfolio PAI 10 (Breach of UN Global Compact Principles & OECD Guidelines for Multinational Enterprises-SFDR) and PAI 11 (Lack of Processes & Compliance Mechanisms to Monitor Compliance with UN Global Compact Principles & OECD Guidelines for MNEs-SFDR) assessment to the Investment Manager's coverage universe and a sample of infrastructure indices based on data provided by third-party, Sustainalytics.

The Investment Manager assessed that over the reporting period sustainable investments were aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, on the basis that the portfolio performed better than the coverage universe and related infrastructure indices on these metrics.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager monitors and reports against the PAI indicators. The Investment Manager currently report against the 14 mandatory and 2 optional indicators deemed to be relevant for the investment universe. The Investment Manager reviewed portfolio company performance and risk exposure against PAI 1-14 through internal due diligence as well as specialist external data providers. Portfolio company performance and risk exposure was monitored on a weekly basis by the Investment Manager's Investment Committee and any issues identified are then reviewed by the Investment Manager's investment team and, if deemed potentially material, will result in a formal PAI investigation.

As part of the above, the Investment Manager monitors and reports against PAI indicators related to social characteristics by monitoring PAI 10 (Violations of UN Global Compact, which includes human rights and labour principles), PAI 11 (which assess a company's processes to monitor UNGC principles), PAI 12 (gender pay gap), and PAI 13 (gender diversity).

Over the reporting period, the Investment Manager closed three separate company PAI investigations, relating to portfolio companies. A US rail company was investigated under PAI 7 & 8 following a train derailment. Two portfolio UK Water companies were investigated under PAI 8 following extensive accusations of unauthorised sewage discharges. A summary of the portfolio company investigations undertaken during the reporting period is provided in the table below:

Company	Headline	Investigation status	Adverse Sustainability Indicator	Comment	Outcome
Water Companies 1 and 2	Sewage discharges into rivers	Closed 7 Mar 2024	8. Emissions to water	Raw sewage was pumped directly into water	Conclusion that there is no clear evidence of systemic poor decisions by management leading to potential pollution. The company appears to have added storage capacity, enhanced existing facilities, had above-sector average environmental rankings, have not had treatment volumes decline and also reinvested the Totex efficiencies into the business in the historical regulatory periods.
US Rail Company	Train derailment	Closed 18 Oct 2023	7. Activities negatively affecting biodiversity sensitive areas	Reports and anecdotal accounts of dead fish being found in nearby waterways. Burning of chemicals may have released hazardous gases into airways.	The engagement did not find any evidence that the company has been taking actions that may have adversely impacted safety and directly contributed to the derailment. The provisional NTSB report into the accident found no fault with Norfolk Southern
			8. Emissions to water	Media reporting emissions from the derailment may have run into nearby waterways.	operations or procedures that would have contributed to the accident. Our analysis of the longer-term safety performance of NSC vs the sector has concluded that the company is performing in line or better than peers.

What were the top investments of this financial product?

Over the reporting period, the average top investments in the Fund's portfolio were as follows:

the	Largest Investments	Sector	% Assets	Country
	Edison International	North American Utilities	7.90%	United States
	Terna S.p.A.	European Utilities	7.81%	Italy
tion of	SES SA FDR (Class A)	Communications	7.75%	Luxembourg
duct	United Utilities Group PLC	UK Utilities	7.56%	United Kingdom
ence	Orsted	Renewables	6.49%	Denmark
1	Enel SpA	European Utilities	5.32%	Italy
lune	National Grid plc	UK Utilities	5.32%	United Kingdom
	Fraport AG	Airports	4.61%	Germany
	Severn Trent Plc	UK Utilities	4.55%	United Kingdom
	Getlink SE	Rail	4.53%	France

Source: ATLAS Infrastructure. Average calculated based the Fund's portfolio on five snapshot dates: 1 July 2023, 30 Sep 2023, 31 Dec 2023, 31 Mar 2024, 30 Jun 2024.

What was the proportion of sustainability-related investments?

What was the asset allocation?

Over the reporting period, on average 85% of the Fund comprised sustainable investments as defined under with Article 2 (17) in SFDR, without causing any significant harm to any environmental or social objectives.

70% of the Fund comprised investments with an environmental objective aligned with the EU Taxonomy on a capex basis.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 1 July 2023 to 30 June 2024

Asset allocation describes the share of investments in specific assets.

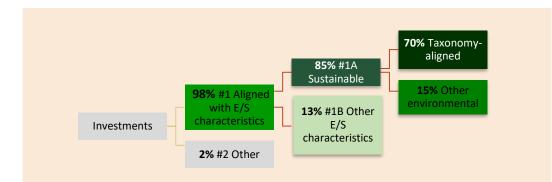

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities

directly enable other activities to make a substantial contribution to an environmental objective.

Transitional

activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#20ther includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.

- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made

Over the reporting period the average look-through sub-sector exposure of the portfolio on an enterprise value (USD) weighted basis was as follows:

Portfolio weight
7%
9%
44%
7%
7%
9%
3%
12%

Source: ATLAS Infrastructure. Average calculated based the Fund's portfolio on five snapshot dates: 1 July 2023, 30 Sep 2023, 31 Dec 2023, 31 Mar 2024, 30 Jun 2024.

The gas utility sector and a portion of railway sector investments over the reporting period were involved in the transportation of fossil fuels as referred to in Article 54.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The investment process requires detailed modelling of each infrastructure company at the individual asset level. The Investment Manager assesses company activities against the Technical Screening Criteria for the EU Taxonomy to derive estimates of eligibility Taxonomy-aligned activities are expressed as a share of:

- turnover

reflecting the share of revenue from green activities of investee companies.

capital expenditure (CapEx) showing the green investments made by investee

companies, e.g. for a transition to a green economy.

 operational expenditure (OpEx) reflecting green operational activities of investee companies. and alignment for each company in the investment universe and the portfolio at the revenue, opex and capex level. The Investment Manager's assessment is compared with those provided by the companies themselves and third party data, where available.

In total, sustainable investments with an environmental objective aligned with the EU Taxonomy comprised on average 82% of total sustainable investments over the reporting period. The remaining 18% comprised investments that were aligned with one or more UN SDG but were not aligned with the EU Taxonomy.

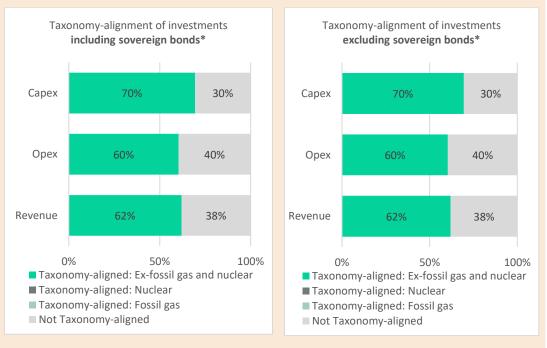

EU Taxonomy alignment data will be calculated based on the RTS and sourced in line with the Investment Manager's policy available on the Investment Manager's website https://www.atlasinfrastructure.com/esg/

The level of EU Taxonomy alignment reported, has not been subject to an assurance or review provided by an auditor or third party

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?

	Yes:		
		In fossil gas	In nuclear energy
×	No		

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds^{*}, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

0%. The Investment Manager did not explicitly measure the share of investments made in transitional and enabling activities over the reporting period.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

EU Taxonomy alignment of investments including and excluding sovereign bonds in the last reporting period, ending 30 June 2023, was 53% for capex, 40% for opex, and 42% for revenue. These numbers are restated from the 52%, 39% and 41%, respectively, presented in the last Periodic Disclosure, reflecting updated alignment data for one portfolio company.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy

The average share of the Fund's portoflio that was invested in sustainable investments not aligned with the EU Taxonomy was 15% based on capex over the reporting period.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

This comprises the share of the portfolio that were aligned with one or more UN SDG but that were not aligned under the EU Taxonomy Technical Screening Criteria, measured in both cases on a capex basis.

What was the share of socially sustainable investments?

0%. The Investment Manager did not explicitly measure the share of investments that contributed to a social objective.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Cash and unrealised FX hedging profit and loss primarily for efficient portfolio management and liquidity. No minimum environmental or social safeguards were in place for these investments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Company engagements:

Over the reporting period, the Investment Manager had two active engagements with portfolio companys concerning their emissions reduction plans and Net Zero alignment. Those engagements were with an Italian gas utility and a US utility. An update to the US Utility engagement was made in April 2024 which recommended the closure of the engagement following the exit of the position. Details are provided below:

Company	Торіс	Status	Engagement Objective & Outcomes	Next Steps
Italian gas utility	Environmental – Climate	Ongoing (opened December 2022)	A letter was sent to the company's management. The company is collaborating with the Italian government to model a scenario in line with the RePowerEU framework. The company currently expects a reduction in gas supply volumes by 2030 below the reduction envisaged in the Italian National Energy and Climate Plan. We continue to request better alignment.	Monitoring corporate scenario planning
US utility	Environmental – Climate	Closed April 2024	Outcome partially achieved. Projected company emissions were inconsistent with limiting warming to Below 2 Degrees at the engagement start (Oct-23) but had become consistent with updated company guidance by November 2023 following engagement. Although the emissions performance improved, concerns around a lack of management focus on emissions alignment led to a higher risk weighting of holding the asset which contributed to ATLAS' exiting from the position.	The Investment Manager closed the engagement following the exit from the position in Q1 2024.

PAI Monitoring:

The investment process includes a weekly monitoring and assessment of portfolio and non-portfolio ESG risks. These are then mapped against the Principal Adverse Indicators and potential breaches are identified for follow up and review for potential breaches of DNSH criteria.

Over the reporting period, the Investment Manager closed three separate company PAI investigations relating to portfolio companies. A US rail company was investigated under PAI 7 & 8 following a train derailment. Two portfolio UK Water companies were investigated under PAI 8 following extensive accusations of unauthorised sewage discharges.

A summary of the three engagements relating to PAIs 1-14 that were active during the reporting period is provided within Annex IV in a table above.

Greenhouse Gas emissions reduction:

As discussed earlier in this Annex, over the reporting period the Investment Manager estimated and reported the alignment of portfolio company emissions with Paris Agreement targets and against the portfolio emissions as of 2019. The Investment Manager has set a 39.2% minimum cumulative emissions reduction target for the period 2019 to 2030 and measured portfolio performance against this target over the reporting period.

Paris Agreement alignment:

As discussed earlier in this Annex, the Investment Manager classified all portfolio and investment universe companies into one of four alignment categories based on their expected emissions alignment with Paris Agreement targets, their broad Scope 3 or "network" emissions, and the company strategy. The Investment Manager had a minimum share for Net Zero Aligned (Tier 1) and Aligned to a Pathway (Tier 2) and measured achieved performance over the period.

EU Taxonomy and UN SDG elibibility and alignment:

As discussed earlier in this Annex, over the reporting period the Investment Manager estimated and reported at the company and portfolio level the degree of eligibility and alignment with the EU Taxonomy based on Technical Screening Criteria. Alignment with UN Sustainable Development Goals was also estimated and reported.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

How does the reference benchmark differ from a broad market index?

Not applicable.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

How did this financial product perform compared with the reference benchmark? Not applicable. How did this financial product perform compared with the broad market index?`
 Not applicable.
